

DOWCO POWERSPORTS **CAN-AM COVERS**

INSTRUCTIONS FOR USING THIS GUIDE:

This guide should be used as a supplement to our fitment guide (cover options are listed based on your motorcycle) at dowcopowersports.com. Measure your vehicle carefully and use the chart below to help you determine the correct size cover for your motorcycle. Please take into consideration the accessories you have. Your cover should fit so that the cover is not touching the ground, preferably about 3"-6" off the ground. This will allow for air to circulate under the cover to help prevent moisture build up.

ALL MEASUREMENTS IN INCHES

ITEM PN/MODEL	LENGTH	FRONT WIDTH	REAR WIDTH	FRONT HEIGHT	REAR HEIGHT
